12-GAUGE FIN STABILIZED ROUND

PRODUCT SPECIFICATIONS	
Diameter	12-Gauge
Length	2.34 in / 5.94 cm
Projectile Count	1
Velocity	500 fps / 152 mps
Minimum Safe Range	15 ft / 4.6 m
Maximum Effective Range	35 ft / 10.7 m
PROJECTILE SPECIFICATIONS	
Material	Rubber
Length	1.70 in / 4.3 cm
Hardness	75 Durometer (A)
Weight	0.2 oz / 5.8 g
Part No.	3021
Warranty	5 years from date of manufacture
ALL SPECIFICATIONS ARE AVERAGES AND SUBJECT TO CHANGE	
<p>The 12-Gauge Fin Stabilized Round incorporates a translucent shell loaded with a 5.8 gram, finned rubber projectile. The 12-Gauge Fin Stabilized Round utilizes smokeless powder as the propellant.</p> <p>The 12-Gauge Fin Stabilized Round is most widely used as a crowd management tool by Law Enforcement and Corrections in crowd control situations against single, non-compliant subjects. The 12-Gauge Fin Stabilized Round is generally considered a low to medium pain compliance round for close range deployment.</p> <p>The 12-Gauge Fin Stabilized Round is intended for direct fire deployment. The operator should be adequately trained in the use of Less Lethal Impact Munitions and have a thorough understanding of the round and considerations for selecting shot placement such as level of threat, target distance, size, and clothing.</p> <p>As a pain compliance round for crowd control, it is most suitable at close to moderate ranges, approximately 15 to 35 feet. This round provides a solution for the non-aggressive, but non-compliant individual prior to the use of more dynamic munitions. At closer ranges, this round will supply an impressive sting with little threat of injury.</p> <p>The 12-Gauge Fin Stabilized Round is not suited as a dynamic, high-energy, single subject round for the purposes of incapacitation.</p>
