12-GAUGE MUZZLE BANG / LAUNCHING CARTRIDGE

PRODUCT SPECIFICATIONS	
Diameter	12-Gauge
Length	2.00 in / 5.08 cm
Part No.	1210
Warranty	5 years from date of manufacture

ALL SPECIFICATIONS ARE AVERAGES AND SUBJECT TO CHANGE

The 1210 12-Gauge Muzzle Bang / Launching Cartridge incorporates an opaque shell and utilizes black powder as the propellant. It has the ability to be used alone as a Muzzle Bang for crowd management or for propelling grenades when using the 1370 Launching Cup.

Muzzle Bang application:

The 12-Gauge Muzzle Bang / Launching Cartridge used alone produces 170 dB of sound output. It is designed to be aimed at the floor or wall at a 45° angle. This round should not be direct fired at personnel. It is used as a crowd management tool by law enforcement and corrections in crowd control situations as a means of warning, intimidation or diversion. It may be deployed in the air over crowds or to the side for dissuading movement in a given direction. It may also be deployed to the far side of buildings to divert the attention away from an approach or entry.

Launching Cartridge application:

The 12-Gauge Muzzle Bang / Launching Cartridge used in conjunction with the 1370 Launching Cup provides the operator with the ability of projecting the Pocket Tactical family of grenades (#1019-OC, #1015-CN, #1016-CS, and #1017 series-Saf-Smoke). The use of the Launching Cup will project the grenades further than can be hand delivered. This increases the distance between operators and crowds, reducing the chance for injuries to both parties.

WARNING

This product can expose you to chemicals including Lead Salts and Hexavalent Chromium, which are known to the State of California to cause cancer, and Lead Salts, which are known to the State of California to cause birth defects or other reproductive harm.
