

# 37/40MM WOOD BATON SMOKELESS POWDER ROUND

PRODUCT SPECIFICATIONS	
Diameter	1.50 in / 37 mm
Length	4.80 in / 12.2 cm
Projectile Count	3
Velocity	280 fps / 85 mps
Minimum Safe Range	30 ft / 9.1 m skip fired
Maximum Effective Range	60 ft / 18.3 m skip fired
PROJECTILE SPECIFICATIONS	
Material	Hard Wood
Height	1.00 in / 2.54 cm
Diameter	1.40 in / 3.55 cm
Weight	0.50 oz / 14.3 g
Part No.	6298
Warranty	5 years from date of manufacture

ALL SPECIFICATIONS ARE AVERAGES AND SUBJECT TO CHANGE

The 37/40mm Wood Baton Round incorporates a 4.8-inch casing that contains three (3) wood projectiles. This 37/40mm Wood Baton Round was designed for departments that utilize both 37mm gas guns and 40mm launchers. This allows sharing of ordnance between the two weapons systems. It differs from its 37mm counterpart in that it utilizes smokeless powder as the propellant and therefore has velocities that are considerably more consistent. They also tend to have tighter patterns than the counterpart that uses black powder.

The 37/40mm Wood Baton Round is most widely used as a crowd management tool by Law Enforcement and Corrections. The 37/40mm Wood Baton Round is generally deployed in low trajectories or skip fired in the general direction (**non-target specific**) of the intended targets, administering a means of pain compliance over greater distances than most of its counterparts.

The 37/40mm Wood Baton Round is intended to be skip fired, but may be direct fired at the discretion of the operator. When used in either manner, the operator should be adequately trained in the use of Less Lethal Impact Munitions and have a thorough understanding of the round and considerations for selecting shot placement such as level of threat, target distance, size, and clothing.

As a pain compliance round for crowd control, it is most suitable at medium to extended ranges of fire, approximately 30 to 60 feet. Inside of 30 feet, this round may result in minor injuries. It is ideal for correctional facilities where multiple impacts for greater stand-off distances may be desired for countering yard disturbances.

The smokeless propellant utilized in the 37/40mm Wood Baton Round results in less smoke and may be more suitable for indoor operations than its counterpart utilizing black powder.

**⚠ WARNING**

This product can expose you to chemicals including Lead Salts and Hexavalent Chromium, which are known to the State of California to cause cancer, and Lead Salts, which are known to the State of California to cause birth defects or other reproductive harm.
