| Active Agent | OC 0.09 oz / 2.50 g CN/CS 0.70 oz / 19.6 g |
| Discharge Time | Instantaneous |
| Part No. | OC 1140 CN 1141 CS 1142 P 1143 |
| Warranty | 5 years from date of manufacture |

ALL SPECIFICATIONS ARE AVERAGES AND SUBJECT TO CHANGE

The 37mm Muzzle Blast Rounds incorporate an aluminum shell and utilize black powder as the propellant. The 37mm Muzzle Blast Rounds are designed to deliver chemical agents in the immediate area (30 feet) of the grenadier.

The 37mm Muzzle Blast Rounds are widely used as a crowd management solution for the immediate and close deployment of chemical agent. However, it has proven successful during tactical operations.

As a pain compliance round for crowd management, the 37mm Muzzle Blast Rounds are an excellent device for deploying chemical laden powder at close ranges for indoor or outdoor operations. The 37mm Muzzle Blast provides instantaneous emission of chemical agent directly at or on riotous, non-compliant subjects close to the police line or within confined spaces.

As a tactical round, the Muzzle Blast Rounds have been used in operations such as barricaded subjects, room clearing, space denial, and a means of contaminating crawl spaces and attics. The purpose of the Muzzle Blast Rounds is to minimize the risks to all parties through pain compliance, temporary discomfort, and/or incapacitation of potentially violent or dangerous subjects.

It is recommended that the grenadier and all team personnel in the immediate vicinity of deployment utilize protective masks.

WARNING

This product can expose you to chemicals including Lead Salts and Hexavalent Chromium, which are known to the State of California to cause cancer, and Lead Salts, which are known to the State of California to cause birth defects or other reproductive harm.
