40MM 250-SHOT LE TRAINING KIT

PRODUCT SPECIFICATIONS	
Diameter	1.60 in / 40 mm
Length	3.40 in / 8.6 cm
Velocity	Comparable to Operational Rounds
Effective Target Range	230 ft / 70 m
Kit Includes (Usage Rate)	25 – Yellow Plastic Projectiles (10x) 25 – Blue Bases (10x) 250 – Propellant Cartridges (1x)
Part No.	6530LE
Warranty	5 years from date of manufacture
ALL SPECIFICATIONS ARE AVERAGES AND SUBJECT TO CHANGE	
<p>The 40mm Law Enforcement Extended Range Training Kit contains twenty-five (25) yellow plastic projectiles designated for training only, twenty-five (25) blue anodized aluminum shell bases w/ set screws, and two hundred fifty (250) propellant cartridges. Each projectile and shell base is intended to be used ten (10) times, and then discarded. The model 6530LE is a new version that incorporates an improved projectile design and black oxide coated steel insert instead of aluminum.</p> <p>The Law Enforcement Extended Range Training Kit incorporates reusable components that simulate the accuracy of the following rounds to a training range of 70 meters:</p> <p>eXact iImpact™ LE ER (6325LE) Direct Impact® LE ER (6320LE, 6322LE, 6323LE, 6326LE)</p> <p>The plastic molded nose and the blue base were designed and tested to be used ten (10) times; beyond that the performance of either of these components may be compromised. If they are fired more than ten (10) times, the product liability and warranty associated with the model 6530LE will be voided.</p> <p>IMPORTANT: The Law Enforcement Extended Range reload propellant cartridges are distinguished from the standard reload cartridges by their black coating. They will produce higher projectile velocities than the standard reload cartridges, and are intended to be used in training for the 40mm Law Enforcement Extended Range products only. Use extreme caution when conducting training operations.</p>	
 	

WARNING

This product can expose you to chemicals including Lead Salts and Hexavalent Chromium, which are known to the State of California to cause cancer, and Lead Salts, which are known to the State of California to cause birth defects or other reproductive harm.
