40MM STINGER® 60-CAL RUBBER BALL SMOKELESS POWDER ROUND

| PRODUCT SPECIFICATIONS | |
|---|----------------------------------|
| Diameter | 1.60 in / 40 mm |
| Length | 4.80 in / 12.2 cm |
| Projectile Count | 18 |
| Velocity | 325 fps / 99 mps |
| Minimum Safe Range | 15 ft / 4.6 m |
| Maximum Effective Range | 50 ft / 15.2 m |
| PROJECTILE SPECIFICATIONS | |
| Caliber | 60 |
| Diameter | 0.60 in / 1.5 cm |
| Material | Rubber |
| Hardness | 60 Durometer (A) |
| Weight | 0.08 oz / 2.5 g |
| Part No. | 6097 |
| Warranty | 5 years from date of manufacture |
| ALL SPECIFICATIONS ARE AVERAGES AND SUBJECT TO CHANGE | |
| <p>The Stinger® 40mm, 60-Caliber Round incorporates a 4.8-inch casing that contains approximately eighteen (18) rubber balls. It differs from its 37mm counterpart in that it utilizes smokeless powder as the propellant and therefore has velocities that are considerably more consistent and have tighter patterns.</p> <p>The Stinger® 40mm, 60-Caliber Round is most widely used as a crowd management tool by Law Enforcement and Corrections. The round is generally deployed in low trajectories or skip fired in the general direction (non-target specific) of the intended targets. It is suitable for administering a means of pain compliance over a greater distance than its counterpart, the Stinger® 32 Cal. Round. Like the Stinger® 32 Cal., the Stinger® 60 Cal. Round is not well suited as a dynamic, high-energy single subject round for the purposes of incapacitation.</p> <p>The Stinger® 40mm, 60-Caliber Round is intended to be skip or direct fired at the discretion of the operator, but it is necessary to keep the trajectory low so the projectile spread will not engage the subject above the breast line. When used in this manner, the operator should be adequately trained in the use of Less Lethal Impact Munitions and have a thorough understanding of the round and considerations of selecting shot placement such as level of threat, target distance, size, and clothing.</p> <p>As a pain compliance round for crowd control, it is most suitable at close to moderate ranges of fire, approximately 15 to 40 feet. This round provides significantly more energy than its counterpart, the Stinger® 32 Cal. It is ideal for lower threat levels such as non-compliant crowd prior to the use of more dynamic munitions.</p> | |

WARNING

This product can expose you to chemicals including Lead Salts and Hexavalent Chromium, which are known to the State of California to cause cancer, and Lead Salts, which are known to the State of California to cause birth defects or other reproductive harm.
