

# MULTI-PORT II DISTRACTION DEVICE 11-GRAM, NON-RELOADABLE & NON- RELOADABLE WITH SAFETY CLIP

**DEFENSE  
TECHNOLOGY®**

PRODUCT SPECIFICATIONS	
Diameter	1.50 in / 3.81 cm
Length	5.70 in / 14.48 cm
Canister	Round, Steel
Fuze	M201A1 Type
Explosive Content	Flash Powder - 0.39 oz / 11 grams
Sound Level	175 dB at 5' (1.5m)
Light Level	6-8 million Candelas
Light Duration	10 milliseconds
Part No.	8925NR 8925NRSC
Warranty	5 years from date of manufacture

**ALL SPECIFICATIONS ARE AVERAGES AND SUBJECT TO CHANGE**

The Multi-Port II Distraction Device® utilizes a M201A1 type fuze with a steel body. This non-reloadable Distraction Device incorporates a water-resistant charge tube and is designed to fit in tactical pockets easily and deliver the safest and most effective stimuli in the industry. The Distraction Device unit should only be deployed in areas that have been visually observed to be clear of potential hazards. It is recommended that the immediate area for deployment be visually observed to be clear of personnel and that the device is delivered so that the ports are free from obstruction. If the bottom ports are obstructed by an object or wall, the device body may move. The cleared area for deployment should be 5 - 6 feet around which the device is expected to come to rest.

The standard render safe practice involving 24 hour water submersion will no longer be effective for the high humidity devices, please consult the render safe procedure for incineration in the instructions

**⚠ WARNING**

This product can expose you to chemicals including Lead Salts and Hexavalent Chromium, which are known to the State of California to cause cancer, and Lead Salts, which are known to the State of California to cause birth defects or other reproductive harm.
