Application	37/40mm Single or Multi Launcher
Part No.	1840 Black 1850 Olive 1860 Orange
Warranty	1 year from date of manufacture

ALL SPECIFICATIONS ARE AVERAGES AND SUBJECT TO CHANGE

Specifically designed for mobile field force or tactical teams, this efficient backpack-style system combines a sturdy carry bag with separately purchased Accessory Pouch Kits, offering a mission ready manner to carry and deploy munitions in the field.

The Launcher Carry System bag is the foundation of the LCS system and is constructed of durable 750-denier ballistic weave fabric. This bag is fitted with an integral water bladder and features a cushioned, removable cummerbund belt. The wide, padded shoulder straps help displace the weight and ensure comfort while on the move. The entire frame of the bag is molded with rigid foam to help retain its shape and reduce weight overall. The three outward facing sides of the bag are covered with 1-inch modular webbing attachment loops to attach either of the Accessory Kit options.

The core cargo area is designed to transport a 37/40 mm single or multi-launcher. The dimensions have been adjusted so even a collapsed M4 can be carried inside.

CONSTRUCTION COMPONENTS:

- Main compartment features zippered closure
- Internal locking system to secure launcher in place with cloth wrap to protect the launcher
- Water bladder pocket to hold the 2-liter water bladder with bite valve
- Wide padded shoulder straps feature a 3-way adjustable center locking point
- Removable padded cummerbund belt with 1-inch modular webbing attachment loops
