The Praetorian™ Riot Suit is an advanced lightweight suit featuring a hard-polypropylene construction with a shock absorbing padded layer and enhanced features for excellent comfort and protection in a riot control situation. Its modular design allows for interchangeable suit components, and the quick-release buckle system allows fast donning and doffing so the user is ready for any situation. Articulating elbow and knee pads allow for greater movement, while suit ventilation and shock-absorbing EVA and EPS foam, and padding configuration incorporated in the shoulder, elbow, groin and knee ensure optimal comfort. The enhanced shoulder coverage and form-fitting panelized chest protector provide next generation protection in a riot suit.

\*NOTE: The Praetorian™ Riot Suit DOES NOT offer ballistic protection
