OC VAPOR AEROSOL GRENADE

PRODUCT SPECIFICATIONS	
Diameter	2.25 in / 5.72 cm
Length	6.50 in / 16.5 cm
Fuze	M201A1 Type
Active Agent	OC .7% Major Capsaicinoids
Discharge Time	1 – 5 Seconds
Launchable	No
Part No.	Inert 1055 OC 1056
Warranty	5 years from date of manufacture

ALL SPECIFICATIONS ARE AVERAGES AND SUBJECT TO CHANGE

The OC Vapor Aerosol Grenade delivers a very high concentration of OC in a powerful mist. This inflames the mucous membranes and exposed skin resulting in an intense burning sensation. The OC Vapor requires minimal decontamination while the target effect and inhalation are dramatic. Removing the subject from the affected area to fresh air will resolve respiratory effects within minutes.

Designed for indoor use, this grenade contains no CFC's and is not a fire hazard. The OC Vapor Aerosol Grenade incorporates an M201A1 type fuze allowing the ability to deploy the grenade with a 1.5 second delay before initiation. The OC Vapor is discharged through (3) three lower ports. Discharge time is exceptionally quick at 1 - 5 seconds, virtually eliminating throwback potential.

The OC Vapor Aerosol Grenade is most commonly used in tactical situations by Law Enforcement and Corrections and was designed with indoor operations in mind when a non fire-producing delivery system is desired. It is most effective when used in confined areas and close to the target area.

The purpose of the OC Vapor Aerosol Grenade is to minimize the risks to all parties through pain compliance, temporary discomfort and/or incapacitation of potentially violent or dangerous subjects.

The OC Vapor Grenade is ideal for cell extractions or barricade situations where the use of pyrotechnic, powder, or liquid devices is not practical or desired.

WARNING:

1. Contents under pressure.
2. Exposure to heat or flame, or storing above 100° F may cause bursting.

⚠ WARNING

This product can expose you to chemicals including Lead Salts and Hexavalent Chromium, which are known to the State of California to cause cancer, and Lead Salts, which are known to the State of California to cause birth defects or other reproductive harm.
